

- **THE TAX-ADVANTAGED RETIREMENT**
- **BLUEPRINT**

Take the wheel of your financial legacy.

| DEDICATED PORTFOLIO PARTNER

Marcos Roldan

I specialize in helping owner-operators and logistics professionals protect their wealth from market volatility and over-taxation.

My mission is to ensure that the people moving America have a retirement that moves them forward—securely, predictably, and with strategic tax advantages.

THE HIDDEN RISKS ON THE OPEN ROAD

Why traditional plans are a "leaky bucket" for high-earning truckers.

| THE TRADITIONAL RETIREMENT TRAP

Market Risk

Traditional 401(k) and IRA plans are fully exposed to market crashes. One bad year can set your retirement back a decade.

Taxes Mortgage Tax

Uncle Sam owns 20-40% of your 401(k). You only get to keep what's left after the government takes their cut.

No Control

Early withdrawal penalties and restrictive government rules prevent you from accessing YOUR capital when you need it.

SHIFTING GEARS TO TAX-ADVANTAGED OPTIONS

Indexed Universal Life (IUL)

Indexed Universal Life (IUL) is a permanent life insurance policy designed to mirror -Market index gains while providing built-in downside protection.

- ✓ Capital Protection Floor: Accumulated cash value is protected from direct market index losses. Index Growth
- ✓ Potential: Participate in market index upside up to policy caps and participation rates.
- ✓ Tax-Advantaged Stream: Access your cash value via policy loans and withdrawals generally free of immediate income taxes.

| THE POWER OF ZERO

0%

MARKET RISK

Protecting Your Principal

When the S&P 500 drops 20%, your blueprint account stays at 0%. You don't have to "dig out of a hole" like traditional investors.

Once your index credits are locked in, they are added to your policy's cash value. This indexing design protects your accumulated value from market volatility, though ongoing monthly policy fees and insurance charges still apply.

| THE GROWTH CURVE

TAX-FREE BLUEPRINT GROWTH

The Blueprint bypasses the tax-drag that slows down traditional savings by up to 40%.

| HOW THE BLUEPRINT COMPARES

Feature	Traditional 401(k) / IRA	Strategic IUL Blueprint
Market Loss Protection	None (High Risk)	0% Index Crediting Floor Tax-Advantaged Policy
Tax Liability	Taxed at Retirement (Unknown Rate)	Loans Penalty-Free Loan Access Options*
Liquidity & Access	Locked until 59.5 (Penalties)	Flexible Premium Parameters
Max Contributions	Strict Government Limits	

| YOUR ROAD TO FINANCIAL FREEDOM

Phase 1: Audit

Analyzing current tax and
market exposure.

Phase 2: Design

Custom Blueprint for your
specific lifestyle.

Phase 3: Launch

Implementing the IUL
protection strategy.

Phase 4: Harvest

Enjoying tax-free income on
your own terms.

“

*"Don't let the IRS ride shotgun in your retirement.
Take the wheel and secure your legacy today."*

*Indexed Universal Life (IUL) is a permanent life insurance product, not a bank savings account, mutual fund, or registered investment product. Policy guarantees and death benefits are backed solely by the financial strength and claims-paying ability of the issuing carrier. Cash value accumulation is subject to monthly deductions for administrative fees, premium loads, and cost of insurance charges, which increase with age and can erode value if the policy is underfunded. Policy loans and withdrawals will reduce the available death benefit and cash value, and can trigger retroactive tax liabilities if the policy lapses. Past index performance does not guarantee future results.

YOUR LEGACY. SECURED.

Build a future that pays you back for every mile you've
driven. Scan or call to begin.
