# HOW MUCH COVERAGE DO YOU NEED?

Consider these factors when determining your coverage needs:

- ✓ Current Annual Income
- ✓ Outstanding Mortgage Balance
- ✓ Consumer Debt (credit cards, auto loans, student loans)
- ✓ Children's Education Expenses
- ✓ Retirement Savings Goals
- ✓ Final Expenses and Estate Costs

A common guideline: 10-15x your annual income

A personalized review can help determine the right amount for your situation.

# PROTECT YOUR FAMILY'S FUTURE

Life Insurance helps provide:

- ✓ Financial Security
- ✓ Family Protection
- ✓ Income Replacement
- ✓ Debt Protection
- ✓ Cash Value Accumulation Options
- ✓ Legacy Planning

The right policy is not just about protecting today. It's about protecting tomorrow.

\*Policy guarantees are backed solely by the financial strength and claims-paying ability of the issuing insurance carrier. Cash value growth inside permanent life policies (Whole Life and IUL) is subject to ongoing policy fees, administrative costs, and cost of insurance charges, which can reduce cash value over time. Policy loans and withdrawals will reduce the total available death benefit and cash value. This presentation is for educational purposes and does not constitute formal tax or investment advice.
